

Invitation to Seminar:

Managing Design Data Collaborations

Objectives

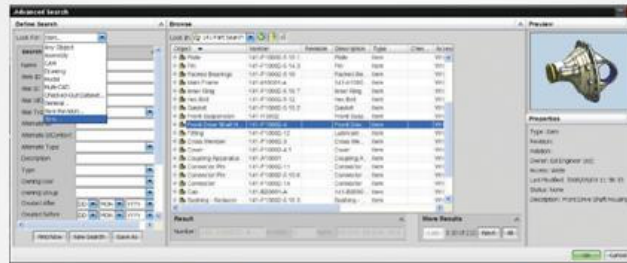

This seminar is designed to show participants how NX Manager allows product development cycle times to be reduced. NX Manager enhances and accelerates management of design collaboration for engineering teams of any size .

About NX Manager

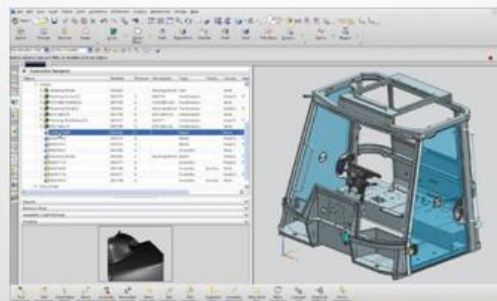

NX Manager provides seamless management, control and security for your NX data. It allows users to rapidly search for designs, manage data revisions and product configurations, and facilitates changes to those product configurations in single or multi-site deployments.

Key Benefits

- Less time to search and retrieve right NX data
- Faster product change and approval processes
- Faster product designs leading to shorter time-to-market
- Complete Collaboration among product teams throughout the supply chain
- A single source of product information in support of your complete design-through manufacturing process

NX users have access to all Teamcenter query capabilities to instantly find and retrieve the right data.

Users create, configure and edit product structure in NX or Teamcenter.

Who Should Attend

Design/ IT/R&D/ Project Managers

Workshop Information

Date : 25 February 2010
 Time : 4.00 pm - 5.30 pm
 Venue : 159 Sin Ming Road, #03-05 Amtech Building, Singapore 575625
[\(view map\)](#)

This seminar is free and seats are limited. Please RSVP by 23 Feb 2010.

For enquiries, please contact Mr. Chiang Hong Keat at (65) 6508-7570 or hongkeat.chiang@cadem.com.sg.
